

Fully Automated Production Volume
Coating System for Large Area PEMs

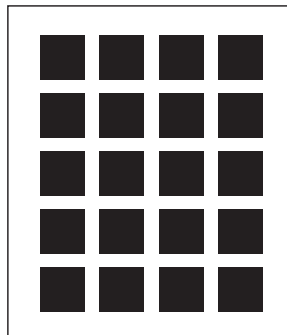

Flexi-Coat^{FC-LAP}

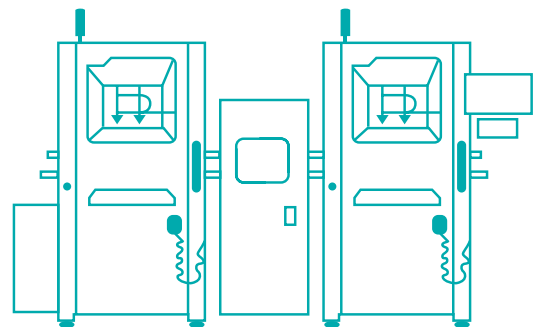

- Automated 2-side membrane coatings
- High throughput
- Auto substrate secure feature prevents warping of membrane
- Flexible/porous catalyst layers onto Nafion/FuMA-Tech surfaces

Flexibility to coat multiple size PEMs. Examples of coating fixtures created for our customers:

- (2) 150 x 300 mm PEMs
- (20) standard 50 x 50 mm PEMs

Multi coat option doubles throughput
